Errata for
Quilting by Design
#11090

Page 55, Shaggy Leaves Border and Corner designs:

These are shown separately on page 55, but in the Embroidery Formats folder on the CD, the border and corner designs are combined in the files labeled CRN for each embroidery software type provided. You can adjust this design to the shape and size you desire using your machine's embroidery software and the chapter 'Customizing Design Patterns'.

If your embroidery software will not allow you to make this correction, please contact our Customer Service department.
