

Errata for
Paper Caper Mini Quilts

#11501

First printing

The paper shapes are printed in reverse to the finished quilt illustrations.

This only affects Wicklow and Waterford as all the other projects are symmetrical. If you place the pop-out pieces as directed, colored side down, the pinwheels will spin counterclockwise, opposite of the finished quilts. If you want to make the quilt as shown, place the pop-out pieces colored side UP.
